### RED DEER HILL.

The crops never looked better at this season of the year than they do now. Wheat and oats are coming into head and barley will in a week if the present weather continues. Added to this the acreage is considerably in excess of any at the Hill yet.

Breaking has also been done on a somewhat extensive scale. A. D. Boylan broke thirty acres and Mr. W. Courtney (for M. Boyd) broke one hundred acres. This makes two hundred acres for Mr. Courtney in two seasons.

Jack Glaister's many friends are happy to see him driving around the Hill every fine day. He had a 'close call,' but is now recovering strength rapidly.

Most of the Hill people took in the First, some in your town, others at a Sunday School picnic at Willoughby.

We have been told that not many were at the picnic owing to the sad death of Mr. Wm. Lytle's daughter, which ocurred on the preceding evening.

Our School District has again been sub divided. At present we have a District whose length is more than double its width containing about twenty square miles. Verily, matters are getting down line. While the sub division is going on we think it would be a good act to pay some attention to adjoining districts, some of which are about ten miles long and whose width is uncertain.

Saskatchewan Farmer's Association is still alive and getting in running order. At the last meeting, as at all others, several new members came in, making about sixty in all. Lindsay School house is the usual place of meeting. It can be seen that the Association is a direct benefit to all connected with it.

Several cattle and horses have died at or near a particular spot between the horses of R. Hedrie and G. C. Spence. The last victim went last week—an iron grey colt two or three years old—owner unknown. It is supposed they die from poison which was placed there last winter for foxes and wolves. We think this is a case for a more rigorous enforcement of the ordinance relating to poisons.

Haying will start in about ten days the hay will be a good length.

We are informed that the parties who went out to Fish Lake were not overburdened with specimens of the "Finny tribe" on the return trip.

Our School's two weeks holidays will begin next week.

R. English has purchased a new wagon.

Red Deer Hill boasts of the champion milkmaid of the District.

## TENDERS FOR HAY

SEALED Tenders marked "Tenders for Hay" will be received by the undersigned up to

*NOON OF 29TH JULY, 1892,*

for the undermentioned quantities of Hay, to be delivered at the places stated:

| | |
|---|---|
| PRINCE ALBERT..... | 200 Tons. |
| BATOCHE..... | 50 " |
| DUCK LAKE..... | 25 " |
| SASKATOON..... | 25 " |

The Hay to be delivered in not less than 50 ton lots at Prince Albert and not less than 10 tons at Batoche, Saskatoon and Duck Lake, although tenders may be made for the full amounts.

Each contractor to be responsible for his hay own stack until it is finished and taken away.

Stacks after standing 30 days must not be less than sixteen feet wide; ten feet to eaves and eighteen feet apex. Only these measurements all under feet will be allowed to represent one ton of hay.

Under certain circumstances stacks will be accepted after standing thirty days fourteen feet wide, eight feet to eaves and fifteen to apex but in such cases 600 cubic feet will be required to represent a ton of hay.

The lowest or any tender not necessarily accepted.

Tenders to be sent by post or handed into Orderly room.

Any further information may be had by reference to the Q.-M.-Serg't

## THE GLORIOUS 12TH.

**Orangemen's Picnic at Carrot River.**

The anniversary of the Battle of the Boyne was celebrated on "the Twelfth" by the Orangemen of this district by a grand picnic at Carrot River. On Monday a number of the members of the order at Prince Albert and others left for Carrot River, where they were met by the members of the order there and welcomed.

The day was beautiful and clear, and until midday people from all parts of the district continued to assemble.

The ladies of Carrot River deserve great credit for the excellent repast provided. About 1 o'clock all sat down and partook of the good things. After the inner man had been satisfied short addresses, suitable to the occasion, were delivered by the following gentlemen:—Rev. Messrs. McCullough, Wright, and Muirhead, G. Ellis, sr., W. F. Meyers, M. L. A., of Kinistino, Spry and Sanderson of Prince Albert, and R. Mitchell, from Ireland. Miss Hill, in her inimitable style, gave a reading entitled "Rheumatism," and Messrs. Morton and Cook gave several selections on the mouth organ and violin. Mr. W. J. Kernaghan, of North Star L. O. L., Prince Albert, occupied the chair during the proceedings.

The picnic was held in the Orange Hall, which was beautifully decorated for the occasion. The young people spent the evening in tripping the light fantastic toe until the wee sma' hours.

### STONY CREEK.

The boom still continues to this district and in fact is steadily increasing. Over 120 settlers have located since June 1st, and we hear of many more coming.

As we believe the Government was willing to remove the Edmonton Land Office to the new town in order to accommodate immigrants, the settlers of this district would be much benefitted by having a Local Agent here, say for the summer months only, as the distance to Yorkton or Prince Albert is too far for busy men to go merely to enter their claims.

We are glad to state that a store will shortly be established here by one of the most enterprising merchants of Prince Albert; nothing like it boys; if the settlers wont stay with you, why come to them; we have plenty of room for even a larger town than the princely city.

Our post office, Meliort, will, we understand, be opened shortly, Mr. B. Rothwell being postmaster.

In chatting with the surveyors the other day they mentioned that it was hard work keeping ahead, the claims being taken so fast than they could survey them. Breaking is forging ahead, and next year will see a large acreage in.

### THE DOMINION ILLUSTRATED MONTHLY FOR JULY, 1892.

The July number of this popular magazine opens with a thrillingly interesting story by Jessie A. Froland, called "The Renunciation of Grahame Corysteen," dealing with a tragic and most uncommon phase of Canadian life. Mr. Frank Yeigh's excellent paper on "A Century of Legislation," is concluded, and forms in all a valuable addition to our legislative history the article is well illustrated. The most amusing article in the number is a story, "Fooling and Faking about Meganley," by H. W. Sandys; it is very appropriate at the present season. We note with pleasure the reappearance of the familiar hand of "Pastor Felix," his article, "Old Arcadian School Days," is written in his happiest vein. Miss Maud Ogilvy, of Montreal, who has recently come to the front with several popular works of fiction, contributes a little sketch, entitled, "A Feminine Camping Party," a paper well worth the attention of all fond of open air life. "The Dominion Educational Association Convention" and "Yachting on Lake Ontario," are two well written and richly illustrated articles, the scope of which is well indicated by the titles; the writers are masters of their subjects and fully cover the ground. A charming poem by Miss A. M. Macleod, and a short instalment of "Scraps and Snaps" from Mr. Crofton's pen, closes the number, the size of which we regret is not larger.

The illustrations are universally good and profuse this month. The front piece is a view of Lake St. Joseph, while the supplement is an excellent portrait of the late Sir Alex. Campbell, Ontario's late Lieut.-Governor. The Sabiston Litho. & Pub. Co., Montreal and Toronto, are the publishers apart the low price asked—$1.50 yearly—the magazine should have a very large support from the Canadian public.

### CANADA FOR JULY.

The broadly Canadian character of this bright little magazine appears in the current number. Canada, Quebec, Nova Scotia, New Brunswick, Prince Edward Island and Manitoba are represented by the contributors. The subjects are varied and interesting, especially to Canadians. We should be pleased to see this intensely patriotic monthly introduced and welcomed from Atlantic to Pacific. Subscription $1.50. The publishers will send *Canada* to new subscribers three months for 18 cents in stamps. Address, Matthew R. Knight, Benton, New Brunswick.

Indian Agent McKenzie, who has been going his rounds of the reserves as usual, left for Duck lake Monday.

### *THE EXAMINATION PAPERS.*

Some of the papers prepared by the Board of Examiners for promotion from Standard III. to Standard IV., and for entrance to the High School, seem to be somewhat severely criticized by various persons through the Regina papers. The papers are not all that can be desired, yet, on the whole, are a step for the better. The papers bear considerable merit, and with the exception of the arithmetic paper, and a few questions throughout the other subjects, the papers for entrance to the High School are a little too easy; but in a new country like this, no doubt, it is better that the questions should not be too difficult. The papers for the teachers' examination are a great improvement on those that have been set heretofore, and the Board of Examiners deserve credit for preparing papers that carry with them a ring of merit. The standard for first and second class is still too low, in some, if not all the subjects. No doubt this will be fully rectified another year, when the teachers of the Territories will pass examinations of as meritorious an order as those of the eastern provinces. The system of valuing the answers is most erronious, and we do not believe ever emanated from the mind of any practical educationalist. The Board of Examiners has too much to do. There should be at least ten or twelve, and every paper should be read by at least two examiners. The system at present adopted by the Executive Committee in reference to the educational affairs of the Territories will prove a "penny wise pound foolish" policy.

It appears from a notice received by Rev. Canon Flett, School Inspector, that he is required to remove to Regina and reside there. The Executive Committee who now manage the Educational affairs of this country, has a new scheme of inspection, that is, that each Inspector shall perambulate from one district to another, instead of having one district, so that the school inspected by one Inspector one term will be inspected by another inspector the following term and so on until the circuit is completed. Such a system we do not beleive is in the interests of Education and will ultimately militate against the schools. Every Inspector shouldhave his allotted district. It is only by regular inspection each term, by the same Inspector, that he is in a position to know whether the work is well done or not, and whether the teacher in charge is successfully doing the work of the School-room. It is a pity that innovations should be made in our school system by men incapable to direct the Educational interests of this great country. Our Educational system wants at the head of it, men, who from practical experience, are capable of directing the educational affairs without a continual line of blunders as apparently is now the case.

A number of M.E.A.'s find themselves in an unenviable plight respecting the appointment of J.P's. It appears that the members were requested to nominate suitable persons in their respective districts. Of course they gladly grasped this opportunity to make a little political capital, Leading men in each constituency were interviewed and promised appointment. But the published list of appointees told a dreadful tale of misplaced confidence. Many a name that was expected to appear was not there. The disappointed would-be-dispensers of justice deem themselves victims of the duplicity of their representatives, while the patronizing lawmakers look in vain for an avenue of escape. It seems that the lists were pruned and revised here—by whom we know not—and scores of names struck off, without reference to the nominators and regardless of their interests or desires. This is another of the anomalies of our half-way system of responsible(?) government.—*Standard.*

We have great pleasure in calling the attention of our readers to the reports, found in another column, of persons who have visited this district during the present season. All appear to come to the same conclusion, that for mixed farming this part of the Territories cannot be surpassed, if equalled. We have excellent water, abundance of wood and hay, and one of the most fertile soils in the world; in fact, everything that will conduce to build up a great agricultural country.

Word comes that no more mail matter is to be permitted to leave Victoria. This seems to be an extreme measure, in view of the facilities for disinfecting such matter, now so well understood. Passengers going west over the C.P.R. are notified that they cannot proceed further than Vancouver; they can not go on to Victoria; Nanaimo has quarantined against Victoria, and Vancouver and New Westminster have practically done the same.—*Calgary Herald.*

Every true Canadian will rejoice to hear the Hon. Edward Blake, who for many years was one of our leading Canadian statesmen, has been elected a member of the Imperial Parliament. Mr. Blake stood for North Longford, and was elected by a majority of over 2,000.

Hillyard Mitchell, M.L.A. for the district of Mitchell, has been appointed to fill the vacancy in the Executive Committee of the Legislative Assembly.

### *WASHINGTON LETTER.*

(From our Regular Correspondent.)

Washington, D.C., July 12. 1892.

It is said that from $10 to $50 a day was paid the strikers in Homestead and that a few of them made as high as $13,000 a year. It is not strange that they wish to hold on and keep others out. They are like office holders of whom it it is said that "few re-ign and none die." If the Homestead workmen hold on to their large per diem Congressman Bailey will hardly expect to reduce the pay of Senators and representatives, which is already smaller than that of the leading strikers, particularly as the said Senators and Representatives fix their own scale without any arbitration. We must be content if they do not raise it and rejoice that they do not resort to guns to prevent competition or a succession as in the South American republics and in Homestead.

Railroads, merchants, manufacturers, professional men and other classes combine to prevent loss and waste. It is eminently proper that labourers should do the same. But these combinations, trusts unions and associations must do justice and be subject to law to the general welfare and none that trample on the rights of others will finally prosper. Every good citizen, every self-supporter, every home lover, every worthy enterprize, every honorable investment and all fair men—the great silent majority are on the side of law, order and justice Fair and equal laws are demanded by the real interests of all. Those who try to dam the mighty current that is bearing the world on to a higher civilization and to a more perfect quality will see their work strewn upon its shores. No false unequal greedy scheme can in the end succeed. Let both labor and capital deal justly, love mercy and walk humbly.

Five of the regular appropriation bills are now ready for the President's signature and six others are now hanging between the two houses. The silver bill pending the house attracts much attention. Its opponents claim a majority. They say there are enough silver men anxious to postpone action or to avoid committing their party to a measure which goes beyond the democratic platform, to defeat the bill sent over from the Senate, either by amendments or upon a direct vote. The World's Fair bill is still pending Other measures pending or likely to be introduced are Homesterd investigatton, anti-option, revenue marine transfer and free wool.

Last Friday the House suspended its rules and passed in short order a free lead ore bill, a tinplate bill, a land forfeiture bill, a bill for the self government of Utah a car coupling bill for the protection of railway employees, and a bill limiting to $100 the amount of clothing that can be brought in free of duty as personal wearing apparel. Republicans charge that all discussion was choked off. They also claim that the free lead bill destroys all democratic chances in Colorado, Idaho and Montana.

Many people here say Congress will not adjourn until October, but they overlook the rapid transit style of doing business which usually prevails in July.

CAPITAL.

### ARBITRATION.

The report of the Town Hall Inspection condemning the bricks was referred to arbitration. Mr. Knox was appointed arbitrator on behalf of the town and Mr. G. T. Brown on behalf of the contractors.

The arbitrators met on Tuesday and reported the brick of first class quality.

Mr. Reid, the inspector, simply did his duty, when he condemned the brick, believing they were not up to the standard required by contract and specifications.

Should the brick prove interior the responsibility will now rest with the arbitrators, who seem to have agreed without naming a third arbitrator.

The building now being erected for town purposes is a large and heavy structure; and one involving a large expenditure of money, so that too much caution cannot be exercised by the inspector, both as to workmanship and the quality of the material used in construction.

## OPINIONS OF STRANGERS.

The following testimonials have been handed us for publication and speak for themselves—

*Prince Albert, June 25th,* 1892

We the undersigned delegates from South Dakota, who left there in charge of Mr. J. Pettet to examine the resources of the Canadian Northwest, left Aberdeen, S. D., on June 6th and proceeded to Winnipeg, where we were met by Mr. G. H. Campbell, general immigration agent, who took us around the city and showed us every kindness. We were agreeably surprised at the resources of the country; our friends there were contented and satisfied with their change.

We afterwards drove through the Yorkton colony and visited Shell and Echo lakes, also the Quill Plains. The whole district through which we passed is very suitable for mixed farming and stock raising. It was our intention to have driven through to Stony Creek, but owing to the bad state of the roads we were compelled to return and go to Prince Albert by train, where we were met by Agent Mair and conducted to the hotel.

Next morning he procured rigs and drove us to Stoney Creek district, which we found better than represented; after driving over the greater portion of this district, which we found well adapted for mixed farming and stock raising, and locating several of our number, we returned to Prince Albert, and were driven to Shell River country, situated about twenty-five miles from Prince Albert.

This district is beautifully situated on the banks of the Shell river, where there is plenty of good land, hay timber and water, and is specially adapted for stock raising. We found all the settlers loud in their praises of the country, saw good samples of grain everywhere, and for the benefit of intending settlers would recommend the Prince Albert district as a good locality to settle in.

Before closing we desire to thank the people of Prince Albert generally, for their kindness to us while here; not forgetting Mayor Donaldson and Agent Mair for their kind attention and the first class transportation furnished us.

*Prince Albert, June 29th,* 1892

Sir—Having heard, from the various agents of the Dominion Government, in Dakota, of the Canadian Northwest as a field for immigration and during the recent failure of crops in Dakota we are desirous of moving to a better locality and in company with Mr. McRae, Immigration Agent, left to look over the Prince Albert district, which we found to be better than represented.

We arrived here on the 25th June, and were driven through the Birch Hills, Shell River and Stony Creek country. All of these localities are suitable for farming and stock raising. There is plenty of timber for building and fencing; good water can be found in the rivers, creeks and lakes, with good land everywhere. We consider the Prince Albert district the most desirable part to settle in of any seen by us along the line of the C. P. R.

All the farmers we have met are prosperous and contented. We were well received and kindly welcomed by all the people here and given every information and assistance by all the Government officials, and in the near future expect to make our homes in this district. Anyone wishing to find a home for himself, with all the requirements of a farmer, will do well to visit Prince Albert district, where he is sure to be satisfied.

*Prince Albert, July 11th,* 1892.

Sir,—We the undersigned delegates from North and South Dakota desire to mention a few of the advantages Prince Albert possesses over other districts passed through, on our trip over the C. P. R., and by the way they treated us tiptop throughout the line.

We started from Dakota June 23rd, crops looking good for Dakota; arrived in Prince Albert and found all kinds of grain in as good, if not better condition, than at home.

We tarried at Prince Albert a few days waiting for Mr. R. H. Mair, Dominion Emigration Agent, who was absent with a delegation, to pilot us over this vast territory, who has a thorough knowledge of the whole country.

On his arrival home he escorted us through the Carrot River and Stony Creek country. On our way back we travelled along the Birch Hills, south of Waterhen Lake, a district we found better adapted for stock than any part passed through. After examining this locality for a considerable time we then went on to Prince Albert and were driven to the Shell River country, which we found also well suited for mixed farming. The crops were well advanced; land is good; water plentiful; abundance of hay; and is only twenty-five miles from Prince Albert town.

We found the town of Prince Albert a much larger place than we expected. Churches of all denominations, large and and commodious schools, colleges, convents and every kind of business is represented, mills, grist and saw, steamboats plying upon the rivers and everything giving an appearance of a much older town in the east. The citizens are found hospitable and courteous; every information was given us cheerfully and by every body, and before leaving for home we wish to express our thanks to the citizens generally for their kindness while visiting their country and can recommend this locality to our neighbors as a most desirable district to settle in, not forgetting to offer our sincere thanks to Mr. McDonald and Agent Mair for their many services rendered.

Signed, Alonzo Griffin,
Frank Lynde,
Wm. Brown,
Jake Wachter.

Sir,—We the undersigned left Prince Albert by carriage on Monday, June 27th, and returned on the 30th. We passed through about eighty miles of country and travelled nearly 200 miles. During the whole time we were in the midst of a country that cannot be excelled for mixed farming. We passed over the forks of the Birch Hills and can recommend them, from what we saw of them, to the land seeker. They are possessed of a deep rich soil, well studded with clusters of timber, alternating with prairie.

The Carrot River district is well drained and is slightly undulating and is also fast settling up with a class of settlers determined on success. There is plenty of fine Government lands still in this district.

The Stony Creek district is unquestionably an exceptionally fine place. We examined the country as closely and found a soil rich beyond anything we have examined. The creek is a continuous stream of running water. There is a continuous cluster of springs all about the vicinity. In the scrub and edges of the bush pea vines grow luxuriantly. Plenty of timber for years to come. We saw poplar logs between 30 and 40 feet long, and from 18 to 24 inches across the base. We saw spruce about the same size. They are erecting a saw and grist mills at this point and the place is rapidly filling up with settlers. Mr. Beatty very willingly piloted us around the district and from him we received an enormous fund of information. He informed us that the continuation of the Manitoba and Northwestern railway, from Portage la Prairie, via Yorkton, to Prince Albert will of necessity pass through the Stoney Creek district, and about the forks where mills are being built and the town starting. For stock raising this is just the country. Cattle have to be housed only about three months each winter.

On our return we stopped with W. F. Meyers, M.L.A. for Kinistino; from him we received much more information taken from notes dotted down during the past ten or eleven years. We were royally treated by Mr. Meyers and thank him for his hospitality, also Mr. Beatty. In fact we cannot but speak with eloquence towards one and all with whom we came in contact. They are truly an hospitable people. They have a good country and wish to share it with their fellowmen. There is room here for millions in the Northwest. The Stoney Creek district proper is fast filling up, and those who wish to get there must hurry.

We think the Department has an excellent and efficient officer in the person of Immigration Agent R. H. Mair, of Prince Albert.

Signed, J. M. Stewart, Hope, N.D.

Mr. J. M. Stewart gives the following graphic description of this district, in the Regina Standard:—"We left Regina on Saturday morning, June 25th, for Prince Albert, on the Saskatchewan. After travelling all day and most of the distance over an open, sandy plain we were landed at Prince Albert. From Saskatoon the country began to wear an interesting appearance, but it was very noticeably interesting from Duck Lake onward. As we approached Prince Albert the boys were heard to give vent to the following expression "We have at last arrived home." In the woods the birds were singing, on the hills the herds were all looking well. In the valley are little lakes with ducks everywhere. All nature green and in her best attire, the atmosphere balmy and delightful the mighty Saskatchewan majestically rolls along. The situation of Prince Albert has the appearance of a veritable Eden. When looking upon the natural attractions of the place it makes one feel like the Queen of Sheba must have felt, when viewing the glories of the possessions of King Solomon when she gave expression to her feelings in the following words:—"The half was never told." The whole country is one vast stock country that is hard to be equalled. We would recommend any person who thinks of trying mixed farming to try this country."

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in thin dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the larger throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this is

We are pleased to hear that the old veteran, Mr. McLoughlen, who has been so long and seriously ill, is again able to be around. During his illness he was carefully attended to by Dr. Reid, of our town.

The installation of officers for Saskatchewan Lodge, No. 1, I. O. O. F., Battleford, took place on Monday, July 4th, 1892, when the following officers were installed: J. A. Smith, N. G.; W. R. Latimer, V.G.; S. A. Blake, P. Sec.; H.H. Mills, R. Sec.; R. A. Lanson, Treas.

Mr. Stull, who returned from Carrot River last week, is delighted with that country, and predicts for it a great future. He considers it one of the finest districts in the Northwest for mixed farming. He says the crops are well advanced and looking excellent, and that the hay crop is simply enormous.

The Rev. Mr. Cooke and Mr. Fleming, of J. G. White & Co., paid a visit to the Shell River district last week. Mr. Fleming speaks in the highest terms of this fine country. He says the crops look well and that this is the finest tract of land he has yet seen in the Northwest, and as he has travelled extensively throughout Manitoba and the Northwest, this speaks volumns for this magnificent tract of country.

A curious incident happened during Dr. Porter's visit in Velasco. Mr. T. N. Campbell, in 1872, visited Columbus, a town 50 miles up the Brazos river, on which river the town of Velasco is situated. While there he caught a turtle and on its shell carved his name and date. Dr. Porter and a number of his friends organized a turtle hunt, and on the shell of one of the turtles was plainly carved "T. N. Campbell, Columbus, 1872."

Wagborn's Guide for July is now ready. The issue contains a list of all the new postoffices opened, new railway time card and changes and alterations in mail and stage services; Atlantic steamship sailings and lake routes of travel; maps of the city and province, the latter showing the new electoral divisions. New tables show the time made by the Columbia and Kootney to Nelson, etc., by the Upper Columbia Navigation Co., via Golden, B.C.

The following are the results of the promotion examinations in P. A. P. School District No. 3:—From Standard III to IV, Fred. McGuire, Ed. Giles, W. McTaggart, Bella Stewart, Jennie Robertson, Jennie Thompson, Etta McLellan, Ollie Brooks. From junior III to senior III—W. Donovan, W. Kennedy, F. McLeod, Isabel Way, Kate Oliver, W. Reid, Maud Rose, J. Wainwright, Emma Duncan, Percy Pritchard. From Standard II to Standard II—Ruth Mayerhy, Helen Stacey, S. Campbell, Daisy Wainwright, Cora Robertson, Ruby Robertson, W. Ross, G. Dilworth, G. Parker, Beatrice Way. From part I to part II—Ethel Goodfellow, Minnie Goodfellow, H. Shea, J. Macdonald, Ethel Mayerhy, J. Donaldson. The names appear in the order of merit and pupils to retain their positions must be regular in attendance.

To run the public coal leases successful to business success, and it can only be gained by a steady course of fair dealing with them. It is by this course that Messrs. Tuckett & Son have secured the great success of their "Myrtle Navy" tobacco. This confidence is not only a source of business to the firm, but also a source of economy which the consumers get the benefit of. The merchant never loses a moment of time in examining the quality of the tobacco. The name gives the quality as absolutely as the mint stamp fixes the value of the guinea. It is not even necessary for the commercial traveller's trunk to be burdened with a sample of "Myrtle Navy." All his customers know what it is, and know it in an instant when it has been supplied. There is no room for any dispute about it. No accident time or postage in writing complaints about it. These may look like trifles to the uninitiated, but they save money, and enable merchants to perform the work of distribution at the smallest possible cost. They are part of the reasons why the finest quality of tobacco grown can be sold at so cheap a price.

## TOWN COUNCIL.

The regular monthly meeting of the town parliament was held on Monday evening last. His worship Mayor Donaldson in the chair, and around the civic board were Couns. Smith, McLeod, Baker, McDonald and Stewart.

Clerk Stull read the minutes of the last meeting, which were adopted.

A communication from L. Schmidt, secretary of C.S. School No. 6, asking that the sum of $400 be raised for said school district, which was referred to the Finance Committee. H.J. Starforth and D. Pollock asked for, and were granted licenses for their hotels without bars.

The town hall inspector reported that he had condemned the brick delivered for the town hall, they not being up to the standard required by agreement.

The contractors presented a testimonial from one brick maker and five brick layers who stated that the brick were equal to quality to any ever made in town.

The account of P. Robertson for $59 and the sixth estimate on town hall, for $377 75, were ordered to be paid.

By laws for levying and collecting rates, were introduced and read a first and second time.

The Council then adjourned.

### NOTHING SO GOOD.

Dear Sirs,—I have used Dr. Fowler's Extract of Wild Strawberry in my family for a number of years, and find nothing so good for diarrhœa and sick stomach as it has proved itself to be.

# "German Syrup"

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the lungs having no business there and eating them away as caterpillars do the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well.

6TH HALF-YEARLY COMPETITION

The most Interesting Contest ever offered by The Canadian Agriculturist.

One Thousand Dollars in Cash, a Pair of Handsome Shetland Ponies, Carriage and Harness, and over two thousand other valuable prizes for the Agriculturist's brightest readers! Who will have them? According to the usual custom for many years past, the publishers of THE AGRICULTURIST now offer their Sixth Half-yearly Competition. The Grand Combination is, no doubt, be the most gigantic and successful one ever presented to the people of the United States and Canada.

One Thousand Dollars in cash will be paid to the person sending in the largest list of English words constructed from letters in the words "The Canadian Agriculturist."

Five Hundred Dollars in cash will be given to the second largest list.

A Handsome Pair of Shetland Ponies, Carriage and Harness, will be given for the third largest list.

Over one thousand additional prizes awarded in order of merit: One Organ; $50 Organ; $30 Piano; Dinner Sets, Ladies' and Gents' Watches, Silk Dress Patterns; Pocket-Cutlery, Silver Tea Services, Teaspoons, Forks, Gold Rings, Dickens in 12 volumes, bound in cloth, etc.

As there are more than 1000 prizes, any one who takes the trouble to prepare an ordinary good list will not fail to receive a valuable prize. This is the biggest thing in the competition line that we have ever placed before the public, and all who do not take part will miss an opportunity of a life time.

RULES—1. A letter cannot be used oftener than it appears in the words "The Canadian Agriculturist." For instance the word "corn" could not be used, as there is but one "n" in the three words. 2. Words having more than one meaning but spelled the same can be used but once. 3. Names of places and persons barred. 4. Lists will not invalidate a list the first words of which are not be counted.

Each list must contain one dollar to pay for six month's subscription to THE AGRICULTURIST. If two or more in the largest list which bears the earliest postmark will take the first prize, and the others will be given in order of merit. United States money and stamps taken at par.

The object in offering these magnificent prizes is to introduce our popular magazine into new homes, in every part of the American continent.

Every competitor enclosing 30 cents in stamps extra, with their list, will send, post-paid, one to THE AGRICULTURIST Knowledge Seeker's System of Canada.

Prizes awarded in persons residing in the United States will be shipped from our New York office free of duty. All money letters should be registered.

OUR FORMER COMPETITION.—We have given away $25,000 in prizes during the last two years, and have thousands of letters from prize-winners in every state in the union and every part of Canada. We have received Lord Kilcoursie, A.D.C. to the Governor General of Canada, writes: "I shall never cease my praise of your competitions. H. M. Beaudry, Vancouver, B.C., received $500 in gold and we told his success far and wide. A few of the prize winners. Miss J. Eddy, $50; Miss J. J. Brandon, Dundee Flats, Ont., $5.00; David Hopkins, Syracuse, N.Y., $500; H. Eva, $5.00; Louis Lee, $50; Jas Bapties, West Lorne, Ont., $7.00; Miss Jessie Masterman, Oak St., Brooklyn, $5.00; Fred H. Hall, 19 Cedar St., Bridgeport, Conn., and thousands of others.
